## Board of Trade Will be Organized

The committees appointed by the town council, Agricultural Society and the U.F.A. to consider the advisability of organizing a Board of Trade, met in C. E. Reber's office on Monday night.

It was decided to proceed with the organization work and a committee was appointed to arrange for a public meeting.

It has not yet been decided what form the meeting will take, whether a mass meeting or a banquet, but an announcement will be made at an early date.

The interests of our town and surrounding district can much more readily be looked after by a live board of trade, than through any individual efforts. With both the country and town people behind an organization of this kind a great deal of good can be accomplished.

The Executive of the Didsbury Board of Trade have decided to have a meeting for this season in consideration of the lack of ice during the greater part of the past winter. The president states that half the fees will not be enough to cover the expenses for the season, but it had been decided to make up the deficit from the surplus on hand. The members are requested to hand in their fees as soon as possible so the business for the year can be wound up.

## Noted Visitors At Didsbury

On Saturday last Didsbury entertained the first millionaire to come here for a long time. Col. Bartley Bull, who is the world's largest importer of Jersey cattle, spent Saturday morning with Norman Clarke, looking over his Jersey herd.

Col. Bull was on his way to New Zealand, where he expects to assist in organizing the dairy industry there. He stated that the plant owned by Norman Clarke was a "2" fine one indeed and the cows of excellent quality and in perfect shape. He was particularly taken with "Sultan's Oxford," who is an exceptionally well-bred sire. He also congratulated Earl Clarke on the wonderful condition of the heifer calves.

On Monday, President E. J. Wood, of Carleton, head of the Mormon Church in Canada, with S. W. Low, manager of Carleton, formerly visited Didsbury for the purpose of selecting Jersey cows and heifers. They spent the morning with Norman Clarke selecting heifers in his barns.

Easteride, St. Cyprian's Anglican Church. Good Friday: 3 hours devotional service, 12 noon to 3. Easter Sunday: 9:30 a.m., Communion. 3 p.m., Evensong and sermon. Sunday School scholars are asked to attend.

## LOCAL & GENERAL

Mr. Nelson McLean purchased a new Chev Coupe last week.

Mr. J. A. McIntosh was a Calgary visitor on Saturday.

Mrs. D. Irwin left for Alhambra, Alberta. Sheshipped a car of effects.

At the Opera House, April 9th, Greta Garbo in "Anna Christie." All-talking. Usual prices.

Mrs. Findlay of the Baelah Mission Edmonton, was attending the M. B. C. conference this week.

Harvey Shantz took 5 bulls for H. Waite and 2 bulls for A. LeClair to the Calgary Stock Show this week.

Miss H. Terry of Innisfail, visited her sister at the Hospital a few days last week, returning home on Wednesday.

Mr. and Mrs. D. McRae entertained delightfully, recently, at progressive 500, the occasion being their wedding anniversary.

"The Lone Rider" at the Opera House tonight (Thursday). Come and see your favorite, Buck Jones in an all-talking. 25c and 55c.

A General Hospital for sick Watchdogs. Close Photographs, Sewing Machines, Etc., Etc. In front corner of Club Lunch. All work guaranteed—Advt.

English Watches, Grandfather Clocks, and Chimes. Everything Ancient and Modern. Bring it to W. Montelth, North End Jeweller.

The Ladies Aid of the Knox United Church will hold an Easter Bazaar next Saturday from 2 to 6:30 p.m. A white elephant sale; fancy work, home cooking and candy. Tea will be served.

On Monday evening the Elton and McLean pass-ball teams gave an exhibition game in the Opera House to aid of the Kynel family of Elton whose house was destroyed recently by fire. It is very unfortunate that the games were not advertised better as there was only a sprinkling of town people present though a fairly good crowd from the country. The games played were both novel and interesting and the players seemed to get lots of "kick" out of them. McLean who apparently have had more practice than Elton were the winners by a score of 9 to 1.

## Coming Events

Dance, Community Hall tomorrow Good Friday, April 3rd. Bellany Orchestra. Gents 75c., ladies free. Lunch served. Everybody welcome.

St. Cyprian's W.A. will hold a Tea and Sale of home-cooking in the Opera House, Saturday, April 11th, 3 to 7 p.m. Business Men's supper, 5:30 to 7 p.m.

## Charming Operetta

The C.G.I.T. girls are to be complimented on bringing to Didsbury the charming operetta, "Cherry Blossom," which was staged in the Opera House by Olds United Church Choir and other artists last Friday evening.

In spite of the cold weather there was a good attendance, and all three spoke very highly of the manner in which the opera was presented.

The stage setting of a Japanese tea-garden was very pretty, the many gorgeous flowers and colored lanterns making a picturesque background for the Gaiety girls, who delighted the audience with their songs and dances.

Mrs. D. Grant as "Cherry Blossom" charmed the audience with her clever acting, and her singing was of a very high order. Mr. Arthur Outten played the part of "Jack," "Cherry Blossom's" lover in an excellent manner, his songs being well received. "Kokono," the proprietor of the tea-garden was well portrayed by Mr. W. D. Craig, whose comedy was very clever.

Mrs. J. Schrader as "Jessica" and Mr. Stan. Edwards as "Harry Jones" deserved much credit, and "Togo," a rich politician was ably played by Mr. J. Wilks. The choruses and dances by the Gaiety girls and American visitors put the finishing touch to a very delightful entertainment.

Mr. W. Gooder played the accompaniment to the songs and dances, while the Boorman Orchestra contributed selections between acts.

Easter Services will be held Knox United Church, Westcott and Westerdale at the usual hours Sunday April 5th.

Rev. A. E. Hayes begins his sixth year at Didsbury this month. During his tenure of office the new church has been built and the charge has become self supporting.

## Tractor Conference

The advantages of power farming particularly in reduction of labor costs were emphasized at the power farming conference held March 29th at the Didsbury Opera House under the auspices of Roger Barrett, local Ford dealer. The conference was directed by Mr. W. G. Cochrane, agricultural specialist of the Ford Motor Co. of Canada Ltd.

The necessity of reducing labor costs in the present highly competitive agricultural market was stressed by Mr. Cochrane during the course of a talk on the financial benefits to be derived from power farming. He showed that all other costs of operating a farm are fixed, labor charges being the only item in which savings are possible.

Motion pictures illustrating the proper preparation of a seed bed; the cultivation and harvesting of crops; the international plowing match; and an aerial trip through the prairie grain country by Mr. Wallace R. Campbell, president of the Ford Motor Co. of Canada, Ltd. were shown. Displays of improved Fordson tractors were exhibited.

## NOTICE OF POLL

Municipal District of Mountain View No. 310

Public Notice is hereby given that an election will be held for a Councillor for Electoral Division No. 2 for the year 1931, and the polling will take place on Saturday, 4th day of April, 1931 from 9 o'clock in the forenoon to 5 o'clock in the afternoon. The polling place for Division No. 2 is Community Hall.

I will, at the Municipal Office at Didsbury on Tuesday, 7th day of April, 1931 at 12 o'clock noon sum up all votes and declare the result of the election.

Given under my hand at Didsbury this 25th day of March, 1931.

THOMAS REISER,  
Returning Officer.

### Thrift --- Waste

At the present time people in all walks of life, individuals, corporations, governments are deeply concerned over the prevailing business depression, unemployment, loss of purchasing power, accumulation of debts. Everywhere people are seeking to learn the primary cause with a view to applying a cure; they are anxious not only to overcome existing conditions, but to ascertain the cause with a view to preventing a recurrence of such conditions.

Some talk learnedly of the world's supply and distribution of gold, which is the basic standard of all international business. Others complain of over-production, although the more generally accepted view now is that the world suffers not so much from over-production as under-consumption. Enormous war debts imposing heavy taxation on all, are held by some to be the underlying cause. Restrictive tariffs, shutting off nations and interfering with the free flow of trade, are blamed by others. Faulty and unduly expensive methods of distribution from primary producers and manufacturer to the ultimate consumer are responsible, so others contend.

But when all these, and a multitude of other things are considered and given their due weight, does not the basic cause lie much nearer home for the average individual? Is it not because of a lack of thrift, the indulgence in habits of waste, that many persons find themselves in financial difficulties?

The writer can well imagine the reader saying to himself that the present is not the time to talk about thrift, when people have little or nothing to save and cannot indulge in waste because they have nothing to waste. But the writer contends, this is, therefore, the most opportune of all times to advocate thrift and condemn waste. It would be a mistake to remain silent until times are booming again, because people then are in no mood to listen. It is when a dollar bought up big, big as ten dollars when times are good and business brisk, that people are more willing to give heed to the words of thrift. When money comes easily, it usually goes just as easily, but when it is hard to get we are more inclined to hold on to it.

In his autobiography, the late Edward Bok, the famous editor of "The Ladies Home Journal," tells how, when he came to America as a lad of six from his native land (the Netherlands), the most wonderful lesson for him was the necessity of thrift. He had already been taught that thrift was one of the fundamental traits of a successful life; his family had come from a land noted for its thrift; but he says, "I had been in the United States only a few days before the realization came home strongly to my father and mother that they had taught their children to a kind of waste." Where, says Mr. Bok, the Dutchman saved, the American wasted. There was waste, and the most prodigious waste on every hand. It was, he says, an easy calculation that what was thrown away in a week's time from Brooklyn homes would feed the poor of the Netherlands.

Continuing, Mr. Bok says: "At school I quickly learned that to 'save money' was to be stingy; as a young man, I soon found that the American disliked the word 'economy,' and on every hand as plenty grew spending grew. There was literally nothing in American life to teach me thrift or economy; everything to teach me to spend and to waste. I saw men who had earned good salaries in their prime, reach the years of ineptness as dependents. I saw families on every hand either living right up to their means or beyond them, rarely within them. The more a man earned, the more he, or his wife, spent. I saw fathers and mothers and their children dressed beyond their incomes. The proportion of families who ran into debt was far greater than those who saved. When a panic came, the families 'piled in,' when the panic was over, they 'let out.' But the end of one year found them poorer, where they were at the close of the previous year, unless they were deeper in debt."

Is it not true, we ask the question adversely, that many of us are in financial difficulties today because of existing thrift when times were good, and still putting aside a little against the day when times might not be good, we spent to the limit of our earnings, possibly beyond, in the belief that times would always be good, and now we are in trouble with no reserves to fall back upon? Is it not true that we were wasteful, perhaps not in big things, but in numerous little ways, carelessly expending a dollar here and a dollar there which, if saved, would be a veritable goldmine now? In these days of world depression, France has been quoted over and over again as the nation least affected and with less unemployment than any other great nation. Why? Because the French people are notoriously frugal; they save their pennies, they waste little.

But we in this new world, with far greater natural wealth and wider opportunity are wasteful, extravagant, spendthrift. And the result, when depression comes and with no reserves, we suffer. Is not, perhaps, the real, the underlying cause of much of our present difficulty to be found in this unfortunate trait in our people? Think it over, each for himself or herself.

## Too much ACID

Many people, two hours after eating, suffer indigestion as they go to bed. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms, such as heartburns, gas, flatulency, etc., will disappear in five minutes.

(Made in Canada)

You will never use crude methods again, you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine, prepared by doctors for conditions due to excess acid. It is always a liquid; it cannot be made in tablet form. Look for the name Phillips' and the word genuine in red.

### Taking the Census

Army Of 15,000 To Be Engaged In Huge Undertaking

Three times as many persons will be needed to complete Canada's decennial census this summer as Wolfe had when he stormed the Quebec Citadel to annex the country to the British Empire, states R. H. Coats, Dominion statistician. On June 1 next is certain to be 15,000 men and women will begin enumerating the population of the country, gathering eugenic and racial information and social and economic records.

It will be the seventh census since Confederation and will be unique in that unemployment figures will be gathered and information regarding hospitals, asylums and child welfare institutions.

As head of the enumeration and compilation staff, Mr. Coats sought the cooperation of all Canadians, asking that they furnish accurate information when interrogated and expedite proceedings as much as possible.

### Acids In Stomach Cause Indigestion

Medical authorities state that nearly 75 per cent of the cases of stomach trouble, indigestion, sourness, burning, flatulence, etc., are due to an excess of hydrochloric acid in the stomach. This acid, which is in normal digestion is delayed and causes indigestion, and the resulting symptoms which every stomach sufferer knows.

Medical authorities are not agreed in regard to the cause of stomach trouble, but all agree that it is due to an excess of hydrochloric acid in the stomach. This acid, which is in normal digestion is delayed and causes indigestion, and the resulting symptoms which every stomach sufferer knows.

### Wagner Festival

Toscanini Will Conduct Performances Of Tannhauser At Bayreuth

Toscanini, Puritzwaenger and Elmdorff will be conductors at this year's Wagner Festival to be held at Bayreuth. This will be the second year in succession that this honour has been bestowed on Toscanini.

Born in Parma, Italy, in 1867, Arturo Toscanini has had a brilliant musical career. He received his early training at Milan Conservatory and in the year 1908 was appointed to the post of conductor of the Metropolitan Opera House in New York, which position he retained until 1931.

To the thousands who attended the festival last year his conducting was a revelation and completely vindicated the faith of those responsible for the breaking of the tradition that only a German was capable of interpreting Wagner.

Boris Hambourg, of that famous Canadian quartette, all of whom attended the festival, described the conducting of Toscanini as being nothing short of marvellous. In all his interviews on his arrival at Montreal on the Cunard liner "Ascania," after the festival, Hambourg had nothing but the highest praise for the Italian conductor.

Arturo Toscanini will, this year, conduct all performances of Tannhauser on July 21st and August 1st, 5th, 8th and 17th. He will also conduct "Parsifal" on July 22nd and August 6th, 9th and 15th. It was originally intended that Dr. Muck would conduct "Parsifal," but owing to a very serious illness has been compelled to withdraw. Dr. Muck is a musician who has been brought up in an atmosphere literally steeped in the Wagner tradition, and it was with great regret that he has had to discontinue his Bayreuth activities.

This year Herr Puritzwaenger will be musical director-general of the Bayreuth Festival Plays, and will conduct "Tristan" himself. Carl Elmdorff will again be the conductor of the "Ring of the Nibelung."

Convenient sailings can be arranged via the Cunard Line for those wishing to attend the festival and each Friday during July and August there will be two Cunard-Anchorage-Bayreuth liners sailing from Montreal for Great Britain and the Continent.

London now has 20,000 men on its police force.

M. N. 11, 1879

## Dead and Run Down RADIO BATTERIES AND AUTO BATTERIES Instantly Charged

SELF-CHARGE will charge Radio "A" and "B" and "C" Batteries, even those that are dead. Run Down—Lamp—Even those that are dead. Long Life—Many and in a few minutes' time, reducing your former battery troubles and expending expense as to a minimum. Makes new batteries last for years, no more. Anyone can use it. "SELF-CHARGE" preserves, and recharges the life of any battery. Works equally well in winter or summer.

**Stronger Spark**  
**Better Reception**  
**Write To-day for Territory**

To introduce "SELF-CHARGE" if there is no agent in your territory, and prove the merit of the claim for it, we will send you prepaid \$5.00 worth of this wonder-solution for \$1.50 so you can test your own radio or auto battery and convince yourself. This introductory offer applies to one shipment only, and will be withdrawn as agents are appointed. Write for the exclusive agency for your district and more particulars regarding how you can make big money.

**Aviation in Alberta**

Alberta Flyers Have An Envious Record Of Performance

Alberta fliers, fewer in number than those of the majority of the provinces in Canada, are among the most active, to judge from the latest figures from the Department of Civil Aviation, which show that during the year 1930 flights, during which about 500,000 miles were covered, were undertaken. Alberta fliers during the year spent 4,415 hours in the air, the average flight lasting for 25 minutes. The planes carried 12,169 passengers.

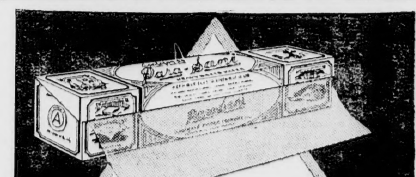

Distemper responds quickly to Douglas' Egyptian Liniment. Keep a bottle handy in the stable.

The Roman Coliseum seated more people than the Yale Bowl, the former accommodating 87,000 people.

## Was Weak and Run Down Could Scarcely Do Housework

Mrs. Edward A. Allen, Bezanston, Alta., writes:—"I would like to tell you of the great benefit I have received from my Milburn's Heart and Nerve Pills. I was feeling very much run down in health, and was so weak I could scarcely do my housework. In fact, I would have to lie down in the afternoon for an hour or so. I saw your Pills in the drug store and took a box home with me, and I was delighted with my renewed strength. I have recommended them to a neighbor and feel sure they will help her too."

Sold by all drug and general stores, or mailed direct at receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Price 50c a box

## Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

## Use Of Fertilizers Throughout Western Canada Would Greatly Increase Production

That the use of phosphatic fertilizers throughout Western Canada would increase the average yield and would lower the cost of production sufficiently to enable Canadian farmers to better compete with low grain prices on the world market, was the statement made at Moose Jaw by Dr. Roy Neidig, of the Consolidated Mining Conference of the Moose Jaw Agricultural Society, held in the Grant Hall Hotel.

Dr. Neidig was explaining the results of experiments made throughout the prairie provinces during the past four years, to establish the feasibility of using phosphatic fertilizers in increasing the grain yield and promoting early maturity and to illustrate his points, showed actual pictures of fields in the three provinces where the new fertilizer had been used successfully.

Thomas Treare, president of the local agricultural society, presided over the dinner meeting, which was largely attended, while a short address was also given by J. C. Mitchell, Dalmian, former world's "wheat king" who told briefly of personal experiences with the new phosphatic fertilizer, and his belief that it would be a practical boon to Western farmers.

In his opening remarks, Dr. Neidig stated that concentrated experimentation over a period of four years had proved conclusively that when the new fertilizer was drilled in with the grain at the time of seeding, it resulted in earlier maturity and more rapid growth of the plant, while the yield was increased appreciably. Over 400 Saskatchewan farmers had co-operated with the provincial department of agriculture in making trials with the new fertilizer, he stated further, and it was proved that to be effective with grain crops, must be drilled in with the seed.

Showing slides, the speaker pointed out that not only would the loss of crops be avoided but the quality of the grain would be retained. The fertilizer had been used with effect on hay lands and various grass crops, while in Southern Alberta it had been used to advantage on sugar beet crops where it had increased the yield from two to seven tons per acre, and had slightly raised the sugar content, besides maturing the crop from five to seven days earlier than normally.

"So when we realize the interdependence of plant nutrients and climatic relationships," he concluded, "we can better understand why the drilling in of small quantities of phosphate with our seed will bring about such remarkable increases in the yield of our crops and their earlier maturity."

### A Worth-While Invention

Written words may be sent over a telephone line by use of an attachment devised by German telephone engineers, who have been testing it. Should the listener have difficulty in understanding a speaker word be asked the speaker to spell it, and it appears before the listener in writing. German long distance lines are expected to first use the attachment.

"You had leave yesterday afternoon to go to see your doctor, and an hour afterwards I saw you in a cafe with a man, playing cards."

Hamburg

W. N. U. 1870

### Story Of Lost Mine

**Reported Discovery Of Gold and Platinum In Alberta Foothills**  
Has the lost "Leman mine" been rediscovered?

The reported discovery of gold and platinum in the Livingstone range in the Alberta foothills country just south of Turner Valley field, has revived the saga of the legendary "lost mine."

Told by old-timers of the district, the story is that a man by the name of Leman discovered a rich white gold mine somewhere west of Nanaimo in 1870. He was said, it was said, by friendly Indians.

Following the discovery Leman returned to Idaho to bring his wife and family to Alberta, but on the return journey all met death, either by an Indian attack or drowning. White men could never locate the mine and the Indians alone knew its secret.

Today with the report of a rich find the pioneers of the district recalled the early day legend.

More than 100 claims have been staked in the area, which is 100 miles northwest of Lethbridge.

After 15 years' search, two prospectors of Staveland, Alberta, made the discovery of the gold and platinum bearing veins, and scores have gone into the Livingstone region.

(By Eva A. Tingey.)

### FOR DAINTY DAUGHTER

All Tingey models are created and sketched in Paris and the patterns are made in New York.

Any little miss would love this wool challis frock. It is French chic overlaid in one stripe, with plain matching shade used for the yoke, panel front and the cuffs.

It is the cutest thing to make. Pin tucks at either side of the front and the back are decorative.

To give easy movement, the dress widens into comfortable flared fullness toward the hem.

Other attractive combinations are orchid and white checked gingham with plain orchid yellow pique with white pique and pale green linen with white linen dotted in green.

This pattern may be obtained in sizes 2 to 6. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

### A New Food Product

**Experiments Now Under Way To Manufacture Honey-Butter**

One of the most interesting announcements in the field of agricultural research and endeavor comes in a recent account of experimental work now under way with the object of combining honey and butter into a food product called honey-butter. This work is now engaging several workers in dairy and honey research and definite results have already been obtained in the direction of producing such a commodity.

The idea, which by the way is Canadian in its origin, is to bring to the market a product which will be used for sandwich and picnic purposes with very definite possibilities of becoming a standard household article. The term honey-butter certainly has a tasty sound about it if it is to be any criterion.

An interesting speculation in connection with this piece of work is in connection with the age old combination of milk and honey as a description of lands of unusual fertility and verdure. Milk and honey have become symbolic of much that is good and their value as nutrients has never been questioned. The combining of honey with the most famous product of milk should certainly give rise to a product of unusual food qualities.

From the standpoint of the beekeeper as well as the dairyman, the establishment of such a commodity should also lead to an increased consumption and wider markets. Honey producers have been endeavoring for many years to get a wider recognition and use of honey as a food and the turning of a considerable portion of the surplus into the manufacture of honey-butter would probably mean more to this industry than many years of publicity.

We shall be watching with interest for the appearance of this food on the market and let us hope that it proves as palatable as the ingredients would indicate.

### Where Four States Meet

**Only One Spot Where Four Boundaries Touch Same Point**

At one place in the United States it is possible to stand with the heel of the right foot in one state, with the toe of the right foot in another, with the left heel in a third and the toe of the same shoe in a fourth state. This unique spot is where the boundaries of Colorado, Utah, Arizona and New Mexico meet. It is the only place in the country where four states meet at the same point.

Coscho-Slovakia now has 250 foot-bail fields and 1,345 tennis courts.

## Revolving Loan Plan To Aid Western Canada Farmers Is Outlined By C.P.R. President

### New Egg Storage

**Air Is Replaced By Carbon Dioxide Gas In New System**

Egg storage, a new development in keeping eggs fresh until the market is ready to absorb them, is interestingly described in the current issue of the News Letter of the Dominion Dairy and Cold Storage Branch at Ottawa. Briefly described, the eggs packed in 15-dozen packages and placed in a metal container known as an Autoclave. When these are placed in the storage compartment the air within the Autoclave is pumped out and replaced by carbon dioxide gas. As a further precaution against the presence of oxygen in or near the eggs the air outside the container is also drawn out and replaced by CO<sub>2</sub>. Theoretically, and it is proving true in practice, an egg stays fresh directly in proportion to the extent to which it contains CO<sub>2</sub> and the two bug-bears of cold storage, mould growth and fungi, can develop only in the presence of oxygen with a humidity of 85 degrees at temperatures of 33 degrees Fahrenheit or over. Owing to the absence of oxygen no mould growth takes place and the egg comes out of storage in a most attractive condition.

### Demand For Mutton

**Domestic Market Is Increasing**

According to latest figures. In 1927, Canada's consumption of sheep and lambs stood at 660 pounds per capita per annum, and by 1929, this had increased to 710 pounds. This increase of one per cent, roughly, is seemingly small, but, as pointed out in a circular letter of the Canadian Co-operative Wool Growers, Limited, it is really impressive. "With our present population of about ten million people the one pound increase represents 10,000,000 pounds or about 200,000 animals or eight per cent of our total sheep population."

### Goat Raising In B.C.

Interest in goat raising continues at a high point in British Columbia. During last year five herds were entered in the record of performance test for goats, ten head having qualified. The highest test was made by a Nubian doe, "Shirley Roma," 286—owned by Harold G. Watson, of New Westminster, whose milk yield was 2,595 pounds and butter fat 132.1 pounds.

### DANCES WITH PRINCE OF WALES

Miss Betty Gardner, of Brockville, Ont., daughter of Mr. and Mrs. J. Gail Gardner, who was the Prince of Wales' partner for four dances during his recent visit to Kingston, Jamaica, on his trip south to the Argentine. Miss Gardner's father is a director of the hotel at Kingston.

Proposals in connection with the organization and operation of the Dominion government's \$5,000,000 revolving loan fund to aid Western Canada farmers were outlined by E. W. Beatty, K.C., president of the Canadian Pacific Railways. Mr. Beatty was first proponent of the idea, definitely announced by Premier R. B. Bennett at Regina, December 30.

The railway head offered two major suggestions for officials named to handle the fund, which has been placed in the hands of the newly-chartered Dominion Agricultural Credit Corporation. No burden of handling charges should be imposed on the farmer, he thought, and the safety of the investment must be assured.

"The policy must be operated in such a way," he said, "so as not to impose a burden on the farmer in the matter of handling charges, interest, etc., but rather to provide him with a greater stability in earning power at the very minimum of cost. It must also insure the safety of the investment so that the capital of the loan corporation is not impaired."

He reiterated his belief, first declared at London, Ont., last December, that the plan would "improve conditions under which farm operations are carried on in those districts where its credits can be properly used."

In some particulars, Mr. Beatty thought, the credit body should function similarly to administrators of the "Minnesota plan." He thought it "might be advisable" to adopt the United States minimum and maximum loan clause. "This would set loans at \$200 to \$1,000," he added, "I would not favor the granting of the maximum amount except under special circumstances."

Length of time for which the loans are made also might be adapted from the "Minnesota plan." The C.P.R. president said: "Under this three-year plan, the farmer would pay back 20 per cent of his loan after the first year, 30 per cent after the second and the balance after the third year."

Mr. Beatty asserted the loan plan would be operated under easily-different conditions than when it met with "amazing success" in Minnesota. "It will be well to remember," he said, "that their record in the matter of repayment of loans has been achieved in the period when prices and other conditions were comparatively good, but they have a great advantage over this country in the matter of population and, therefore, of consumers, and that greater difficulty may be experienced under more adverse conditions."

"This," he added, "suggests the advisability of some restriction in the extension of credit at the outset at least." Greater safety in the operation of the loan scheme would be achieved through numerous relatively small loans and, though he said it was not yet possible to estimate cost of managing the credit corporation, "It should be urged that all possible avenues be explored with a view to establishing credit facilities at a rate of interest not to exceed six per cent," said the C.P.R. president. He stressed that the plan is not expected to "work miracles" for the farmers.

"The central idea of the plan should be to seek to develop in favorable communities on the basis of some diversity in livestock, which under different conditions might include two to five cows, one or two sows, 25 to 100 hens and, wherever possible, 20 to 30 acres per individual farm."

### Thirsty For Music

"There may be many opinions as to Johannesburg's taste in music," writes a correspondent of The Cape Argus, of Cape Town, "but there can be no doubt of its thirst for it. One can walk from end to end of the shopping centre of the city without ever being out of earshot of one instrument or another. As often as not you will hear them struggling one against the other in a duel of sound."

**Ottawa Letter**

Parliament is in session and will stay that way for at least three-and-a-half months. Some pessimists are already to the fore with prophecies that the meeting will carry over until the fall—and it may.

The program, as laid before members in the Speech from the Throne, appears contentious only with respect to tariff revision. There is other legislation proposed which the former government refused, such as federal aid for highway building and for technical education. The objection to it, however, is largely academic and it will have the staunch support of independent members as well as of the Government. Mr. King's objection is to the Dominion voting money where it does not retain direct control of the expenditure. When that objection is recorded the House should be ready for the vote.

The same situation applies after a fashion to old age pensions, though it is under legislation passed by Mr. King that the Dominion already contributes half of these pensions. Under that legislation the maritime provinces and Quebec felt they could not assume the other half of the expenditure and for that reason the aged indigent in those provinces have not enjoyed pensions up to this time. In other provinces, notably in Ontario, the burden on the municipalities has been felt keenly. The Bennett legislation will take practically the entire financial burden off the provinces, relieving those where pensions are now operative of their responsibility and securing for the aged poor in the other provinces equality of treatment.

The maximum pension, it is believed, will remain at \$240 per year until the whole scheme is in operation and there is opportunity to check the annual cost. At present the entire income of the pensioner is strictly limited and in the new legislation some concession in this regard may be extended. It may even become possible for provinces where they so desire, to augment the federal pension.

Statistics gathered from cities and towns having a population of 4,000 and over show that in 133 such centres with a total population of 3,259,701 the number of police officers employed was 5,094, or one officer for every 671 persons. As an instance of their efficiency it is reported that of the 11,158 automobiles stolen in the year 1929, all but 19 were recovered.

While industry and commerce are preparing their plants and methods for low cost operation and quality service in the coming season for home and export markets, and railway systems, a primary impediment of these occupations are presented in that respect by industry in a comprehensive review in last year as did other occupations and in the results of the annual meeting of the Railway Business Association.

**LOCAL & GENERAL**

Scratch Pads may be obtained at the Pioneer Office, 2 for 5 cents.

Mr. J. V. Berscht was a visitor to the Calgary horse show this week.

Mrs. Warren E. Kemp, of Olds visited with Mr. and Mrs. W. Gillrie last week.

Mr. W. Lyons took a couple of his Scotch Shorthorn bulls to the stock show at Calgary on Monday.

Mrs. Bruce Parker entertained Mr. and Mrs. W. H. Chamberlin and daughter Florence to dinner on Sunday.

P. E. Neufeldt shipped a car load of settlers effects to Hythe, in the Peace River country, this week.

The C. P. R. ballast crew arrived in Crossfield last week and work was commenced on the new line west of Cremona. R. Yorkton, of Coronation is the engineer in charge of the construction gang.

Mrs. C. J. Hallman left on Wednesday morning by car for Huron, South Dakota, where she will visit relatives. She accompanied Mr. and Mrs. Baker, who are returning home after attending Bible School.

Mr. and Mrs. F. W. Leeson were host and hostess at a very enjoyable court whist party on Monday night. Miss Noyle, Mrs. W. Thurlow, and Messrs. J. W. Phillipson and W. J. Hilliard winning the honors.

A carload of fourteen horses were shipped to the Calgary Horse Show. Mr. J. Fulkner had two head and Mr. L. Levagood had two head of five gaited Kentucky horses. Mr. W. Reider had two head of Welsh ponies in the same car.

The meeting of the Canadian Legion, held last Saturday night, was well attended. The members are taking considerable interest in the monthly meetings. In addition to the regular business a very enjoyable social evening was spent.

The latest excitement is a platinum rush into Sullivan creek, 170 miles west of Edmonton. No supplies have come out of the area for nearly a year. The University of Alberta, but unofficial estimates by those having knowledge of ore at the strike centre show the value of ore as high as \$1,100 per ton. Over 200 claims were staked last week.

In response to recent inquiries, there will be a number of baptisms in the Evangelical Church on Easter Sunday morning. The evening service will be the conclusion of the present series of evangelistic meetings. Mr. F. S. Spies, an ex-chapman of the church will be the speaker on Sunday morning and will deliver an Easter message. Rev. W. F. Krois returned to Edmonton on Thursday. His messages were very much enjoyed by the audience night after night during his visit here.

**Judicial Sale of Farm Property By Tender.**

Pursuant to the Order for Sale and the directions of the Master-in-Chambers, Edmonton, Alberta, sealed tenders will be received for the purchase of:

S. 1-2 sec. 33, tp. 31, rge 27, W. 4th M. Except out of S. E. qr. 2.91 acres more or less and out of S. W. qr. 2.01 acres more or less; All for roadway 999.15 ft. The land herein containing 315.98 acres more or less. Reserving unto the Calgary & Edmonton Land Co. Ltd. all mines and minerals and subject to the conditions and reservations contained in the original Grant from the Crown or in the existing Certificate of Title and subject to all taxes, rates and assessments imposed subsequently to the 1st day of January, 1931. The vendor is informed that the S.W. qr. 33 has 60 acres under cultivation and 70 acres more could be broken. Threesides are level.

The S.E. qr. 33 has 133 acres under cultivation. Three sides are level. All the land is about 8 miles from All-Right station and 2 miles from a school. There are no buildings on the lands.

Tenders may be made for the full section or for each quarter section separately. The upset price for the S.W. of 33 is \$1,200.00 and for the S.E. of 33, \$2,400.00.

Tenders must be in sealed envelopes, marked "Tender S.C. 21043," addressed to Mr. A. C. Blair Esq., C. K., Master-in-Chambers, Court House, Edmonton, Alberta, and must be in the hands of the said A. C. Blair before 11 o'clock on the 16th day of April, 1931.

TERMS OF SALE: Each tender shall be accompanied by a marked cheque or cash for 10% of the amount of the tender and the balance of the purchase price shall be paid (unless the time is otherwise extended) into Court within 60 days after acceptance of tender without interest, or in the alternative, the purchaser shall execute a mortgage for the sum of \$200.00 on S.W. 33 and \$200.00 on S.E. 33 which shall be a 1st charge on the land and the remainder of the purchase money shall be paid into Court within 10 days after acceptance of the tender without interest. The mortgage shall be for a term of 5 years, payable as follows: the sum of \$75.00 on the 1st day of December in each of the years 1931, 1932, 1933, 1934 and the balance on the 1st day of December, 1935 and shall bear interest at the rate of 5% per annum, payable yearly. If the mortgage is on all the land, then the annual payment shall be \$100.00. The deposit of 10% shall be forfeited by the successful tenderer if he refuses to carry out the purchase after acceptance of his tender. Cheques of unsuccessful tenderers will be returned to them immediately after rejection thereof. The highest or any tender not necessarily accepted. In all other respects the terms and conditions of sale will be the standing conditions of sale of the Supreme Court so far as same are applicable hereto.

For further particulars apply to: A. G. BRIMLEY MOORE, BARRISTER, CREDIT FUNDING BROS., EDMONTON, ALBERTA.

Dated at Edmonton, Alberta, this 16th day of March, 1931.

APPROVED: A. N. H. R. P. WALLACE, C.S.C.

PEAS coming in from the water like a flood. The peas are now shipped to a local use to markets in the U.S.A. and the United States. About 2,000 pounds of whitefish and trout are carried from the north end of the lake in two daily trips. It is planned to increase the service so that it will be able to transport daily to the railroad.

## Conference Week.

The past week has been one of very special activities in the M.B.C. Church at Didsbury, Alberta. On Tuesday and Wednesday, March 24th and 25th, the Annual Sunday School and Ministerial Conventions were held. A number of important subjects relating to various phases of Sunday School work and Church problems were ably dealt with in several excellent papers, while interesting and helpful discussions followed. The evenings were devoted to evangelistic effort when some of the younger men of the conference preached to large and attentive audiences.

The Twenty-fifth Annual Conference of the Canadian North-west Conference of the M.B.C. Church convened at Didsbury, Alberta on Thursday morning, March 26th and closed on Saturday afternoon. The reports of the ministers, lady workers and missionaries were very interesting, helpful and gratifying. The beautiful spirit of love, fellowship and co-operation was most delightful and refreshing.

All the workers were returned to their respective fields. A Traub was re-elected Presiding Elder, and C. J. Hallman was re-elected Vice-Presiding Elder. Several young workers have joined our ranks and are being sent out to new districts in response to urgent calls and applications from other workers are being considered. The present outlook for the future work of the conference is brighter than ever before.

On Thursday night, the Bible School Chorus rendered an excellent program in sacred song to a crowded house, under the efficient leadership of Miss Myra Herber. Same said it was the best yet given.

The senior class conducted the service on Friday night. There are some who will never forget that meeting. Each of the graduates, Mr. A. Frey, Peter Dyck, Lester Stauffer and Oazo L. Traub uttered one phase of their chosen motto, "Holding Forth the Word of Life." This was a very sacred occasion.

Sunday was a great day. The ordinances were observed by a large number, amidst songs of victory, testimonies of praise and shouts of victory. After this the Presiding Elder preached the conference Sermon, his subject being, "Faith's Challenge," based on Mark 2:1-12. V. K. Snyder, one of our former Didsbury boys was also ordained to the ministry at this service.

On Sunday afternoon, Rev. H. Edvardson of Edmonton, delivered the baccalaureate sermon in a very able manner. His remarks were upon 1 Chron. 4:9-10. Personal experience, enlarged vision, whole-hearted devotion and unabated zeal for the Master's Kingdom were some of the things emphasized.

The faculty love-fest in the Bible School, where the members of the faculty met and spent Monday evening with the graduating class and Alumni Association shall live long in the memory of all present.

Tuesday March 31st was the Commencement or graduation night. Rev. J. W. Bruce, of Kimberley, Sask. gave the address, after which the seniors received their diplomas.

Operating on an equal footing with the fastest system in the world, the Canadian Pacific Grain Quotation Service installed by the Canadian Pacific Telegraphs was officially opened with the New Year and places Winnipeg second to none among the world's brokerage centres. Practically perfect operation of upwards of 80 tape ticker machines, carrying their news with lightning speed, beating all previous records by two-thirds, is announced by W. M. Thompson, manager, western lines, Canadian Pacific Telegraphs.

## WHAT YOU EXPECT YOU GET

An anecdote of pioneer days which holds much wisdom for us today concerns two pioneer settlers pushing their way into the sparsely settled West. The first pulled up his team in front of a cabin and addressed an elderly man sitting on a stump and puffing contentedly a corn-cob pipe. "Hey, Old Timer, what kind of folks are there around these parts?" "What kind of folks were there

STUDER'S OLD STAND

where you came from?" countered the resident.  
"Why they were the meanest, slickest, most unpleasant people I ever saw."  
"Well," drawled the old pioneer, "I reckon you'll find the folks around here just about the same."  
A few weeks later another settler came along, asked a similar question, and was answered by the same counter interrogatory. He replied briskly, "Why the folks around about where

I came from were the salt of the earth, the finest, fairest and most helpful folks you could find anywhere. They were neighbors we just hated to leave."  
"Well," answered the local sage, "I reckon you'll find the folks here just about the same."  
To a large degree, we get from people just about what we expect from them. A negative attitude toward life brings correspondingly negative returns.—Rotarian.

WORLD HAPPENINGS  
BRIEFLY TOLD

Mrs. George Dewey, widow of the hero of Manila Bay, died at her residence in Washington.

The British Columbia Government favors federal rather than provincial control of radio in Canada, is its reply to a query from Ottawa.

Sir Robert Barnett, 79, who was physician to the Marquis of Lorne, when he was Canada's governor-general, is dead.

Appointment of John A. Stiles as chief executive officer of the Boy Scouts Association in Canada has been announced by the executive committee of that body.

The 18th amendment has been sustained as valid by the Supreme Court. Under the decision the government will continue its efforts to enforce the Volstead law.

Walter Landrum, the famous Australian billiard player, was summoned to Buckingham Palace to give a demonstration of his skill before the King and Queen.

The conference by the King of an expedition upon Viscount Willingdon, former governor-general of Canada and viceroy of India, is announced in the official Gazette.

Sir Alexander Gibb, noted British port authority, has been invited to investigate the technical and business features of the ports of Halifax, St. John, Quebec, Montreal and Vancouver.

"Big Bill" Thompson, invincible as ever, won his fourth favored nomination in the Republican primary election in Chicago, defeating by a plurality estimated at 42,000 Judge Joe H. Lyle.

MacMillan's Equipment  
Will Include Planes

Arctic Explorer Outlines Plans For Trip Into Arctic Land

Donald B. MacMillan, Arctic explorer, outlined plans for an expedition into Arctic Land and the North Polar region next summer. The expedition, he said, would be in three sections: the first, starting from Vancouver, B.C., June 20, to be followed by Dr. Alexander Forbes, of Boston, and Sir Wilfrid Grenfell, of London. Three aeroplanes will be included in the equipment.

One of the principal objectives he said, would be the study of glaciers to determine the possibility of the formation of another "glacier age."

Persian Balm promotes cleanliness, charm and beauty. It is unrivalled in its magical effect on the skin. Swiftly absorbed by the tissues, it gives new radiance to the complexion. Delightfully cool to the skin, stimulates and invigorates. Softens and makes the hands flawlessly white. Surely fragrant. Imparts youth and loveliness to the complexion. Persian Balm is the inevitable choice of the woman who cares.

## Discover New Land

New land has been discovered in the Antarctic by the Norwegian whaler, Torfinn, the whaler reported in a wireless message. The new land, the message said, is a continuation of Mt. Robertson Land, which Sir Douglas Mawson discovered last year.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dispels the cloud by removing the cause. It does not cure. It does restore the sufferer to normal body tone and mental happiness.

A new cable between Russia and Germany contains a special line for radio broadcasting.

## British Air Ministry

## Has Difficult Task

Every Day Amount Of Sunlight Penetrating City Is Measured

One of the most difficult tasks in London is carried out daily at the Air Ministry offices, where the amount of sunshine penetrating the city is measured. The measuring apparatus consists of a small glass ball through which the heat of the sun passes to turn a special paper placed beneath it, the mark on the paper being used to compute the amount of sunlight passing through.

## She Couldn't

## Be Hoodwinked.

Miss E. Thompson, of Clapham, writes: "I find that Carter's Little Liver Pills will do more to keep the complexion clear, and the skin free from blemishes, than all the face creams I have used. I found the real cause of face blemishes was usually due to liver and stomach trouble. My druggist recommended them as a specific for stimulating the liver and expelling the accumulation of poisons from the system. Take Carter's Little Liver Pills for sick headache and indigestion. All druggists sell and for real prices."

## Work For Russian Women

Soviet Government May Employ Women To Overcome Labor Shortage

Employment of hundreds of thousands of women in industries to overcome the present serious shortage of labor, is being considered by the government of the Soviet Union.

With thousands of jobs for which there are no takers, the country today has the greatest shortage of labor in its history. With millions of women, inactive it is believed the problem could be solved by pressing them into service. The children would be cared for by the state while their mothers are working.

Time Has Tested It. Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried it far beyond the seas. If it were double the price it would be a cheap investment.

## A Worth While Achievement

American tourists returning from Europe report that beads are coming back into style. It is doubtful if they will ever again attain great popularity in America. But if some experienced jeweler would advise a way to transform the ever abundant facial beads of the male to the uppermost portion of his cranium, oh, there would be an achievement.

Government and private steel works in Japan may be merged.

## Test Was Convincing

New Food-Proof 'Plane Will Land Itself Safely

A food-proof aeroplane which its inventor claims will neither stall, spin or dive and will land itself, is the latest contribution to safety in the air.

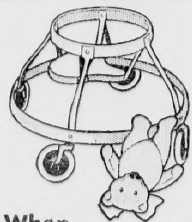

While more than a hundred aeronautical experts and financiers watched the plane was successfully tested at Glenn H. Curtiss airport, New York. Piloted by Henry White, it made a half dozen short flights, and came to a new-fangled landing each time with the pilot's hands high above his head.

The designer is A. A. Merrill, of White Plains, N.Y., formerly in charge of aeronautical research at the California Institute of Technology, and a contemporary of the Wright Brothers, Octave Chanute and Langley. He has been working on the plane since 1913, and at one time was forced to mortgage his life insurance to continue.

Movable wings which can be adjusted over an arc of 14 degrees are the secret of the plane's stability. In flight these restricted flying surfaces prevent a pilot from unwittingly going into a stall or a dive. In landing, they mechanically level off at the proper distance from the ground and assume the proper gliding angle.

## Alberta-B.C. Boundary

Legislation has been brought down in the British Columbia legislature by Hon. N. S. Loughheed, Minister of Lands, approving the Alberta-British Columbia boundary as surveyed by a joint commission between 1913 and 1924.

When  
**BABIES**  
are Upset

BABY ailments seem to come on a sudden. A sudden cry means trouble. Or a sudden attack of diarrhea. How would you meet this emergency?—Fought? Have you a bottle of Castoria ready?

For the protection of your own eyes—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

## Flake Lye

\* Lye should never be dissolved in hot water.

ONE tablespoonful of Gillett's Lye dissolved in a gallon of cold water provides an ideal, safe solution that quickly cleans everything in the bathroom.

Use it to wash walls, the floor, in the sink and bathtub . . . and remember, when you use Gillett's Lye, each is disinfected as well as cleaned with the one operation.

Once each week, pour full strength Gillett's Lye down the closet bowl and it will always be clean and free-running.

Gillett's Lye has dozens of other handy household uses. Send for the new FREE Gillett's Lye booklet describing the many ways it will help you with all your cleaning.

## Transport Fish By Airplane

Northern Saskatchewan Fish Transported To Prince Albert Twice Daily By Plane

Now fish are taken to the air, or rather are being taken by air to market. Fish caught in Lac la Ronge in Northern Saskatchewan, are flown twice daily to Prince Albert, a distance of 290 miles, and from there shipped by rail to Chicago, New York and other American and Canadian centres. Each plane carries about 1,600 pounds of fish in an unrefrigerated condition and immediately on reaching Prince Albert they are iced and packed for shipment in 50-pound boxes.

While airplane transportation has been reported satisfactory, it was found that increasing demand for the northern fish made necessary an additional means of carriage, so two motor tractors, each hauling a heated caliche, have a carrying capacity of about 7,000 pounds of unrefrigerated fish and a trip from the lake by the two tractors means approximately sufficient fish brought to Prince Albert to make up a carload lot for shipment.

Though this is the first year in which fish have been handled by plane, catches from waters in the more remote areas of northern Saskatchewan and Alberta have been successfully marketed as far away as the cities of the United States for several seasons past. Fish from Lake Athabasca, Northern Alberta, for instance, have won market favour, notwithstanding that the distance they have to be carried from the lake to the international boundary alone is about 700 miles.

## Queen Favors Medium Skirt

Add the Queen to the list of those who don't like these new long skirts. "I like frocks that come just above the ankle," she said as she watched a parade of mannequins at the Artificial Silk Exhibition. These very long dresses with floor skirts are difficult to wear, I think. Only an expert like a mannequin can really wear them effectively."

When a mother detects from the swiftness and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

## Japs Angry At Soviets

Feeling against Soviet Russia is rising rapidly in Japan at the report that the Soviet Union has threatened to cancel the Japanese fishery concessions in Siberian waters because of a default by Japan in payment of royalties which were over due.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Miller's Worm Extirminator, an excellent remedy.

Young Wife: "I learnt to cook while my husband was abroad."

Mother: "Well, and what did he say when he returned?"

Young Wife: "He went abroad again."

People with the most perfect eyesight may be able to see about 2,000 stars, but the largest telescope yet built shows up about 1,500,000,000.

Daughter Is  
Stronger Now

"My daughter Catherine is fifteen years old. She was very irregular, often sick at her stomach and had to stay in bed two or three days at a time. One of your booklets was sent to us by mail so I got her a bottle of Vegetable Compound. Catherine has been taking it regularly and she is gaining in weight and every way. I told the neighbors and four other girls are taking it with good results."—Mrs. Clarence Jenkins, Box 14, Thomas, Ontario.

### Melvin Notes.

Miss Doreen Farrant is spending a few days with Ethel Krebs.

Mr. and Mrs. I. Klein spent Sunday at Emil Krebs.

Mr. and Mrs. Vetter, of Three Hills spent Sunday and Monday at Mr. and Mrs. Johnston's.

Mr. and Mrs. Chas. Youngs entertained a number of friends at a whist party on Monday night. A very enjoyable time was spent by all present.

The Melvin Club last Saturday night was very well attended and everyone seemed to have a good time. The Landen children have charge of the program next Saturday night.

### Mountain View Notes

Election for office as councillor in Div. 2 takes place this Saturday.

Miss Doris Brown left today (Thursday) for Calgary to spend Easter with her parents.

Miss J. Wilson will attend the teachers' convention to be held in Edmonton during Easter week.

Cupid appears busy in some corners of the district. His arrows are sometimes very fatal.

Mr. and Mrs. B. A. Atkinson and Miss D. Brown were visitors at the home of Mrs. R. Armstrong, of Oils on Sunday last.

Some early chicks are confined to the house and one particular group are vegetating in a spacious basement, as it is too cold to be out.

The robins and bluebirds are with us again. The two seem to be perhaps regretting their keen enthusiasm in building their home.

A concert is to be held in Community Hall on April 10th. The proceeds go towards providing sport equipment for Gore and Moss schools.

Men also are sometimes too previous. One farmer is reported as having sown some seed before Jack Frost descended with his vicious nip once again.

One housewife was reported to have had her kitchen full of newly-born pigs last Thursday. Had she not taken pity on the wee things, the farmer would have sustained a big loss.

### Westcott Notes.

The Westcott Women's Institute met at the home of Mrs. Ed Klinck. The snow and blustering wind presented a strong contrast to the warmth and cheer within. In spite of the weather there was a good turnout. Roll call was answered by suggestions for money making. Not that the Institute is out for money but as they help the Red Cross, Salvation Army and Orphans' Home, they need money. Mrs. J. Robertson was elected delegate to the convention at Edmonton. After the business meeting, Mrs. Webster gave a paper on "The League of Nations," which was full of interest. Little Betty Klinck gave a short recitation, and Mrs. Blanche Perrin gave a paper on "Home Economics" to which the members paid marked interest. Each paper was followed by discussion. After the meeting, a splendid lunch was served by the hostess. The April meeting is to be held at the home of Mrs. Emmor Tangle.

### BAPTIST CHURCH-WESTCOTT

Rev. J. H. Curtis, of Oils will conduct an Easter service in the church on Sunday, April 5th at 3 p.m. His subject will be "The Living Christ."

### BIRTHS

At Didsbury General Hospital

To Mr. and Mrs. O. Carlton on Monday March 30, a daughter.

To Mr. and Mrs. M. Larsen on March 30, a daughter.

To Mr. and Mrs. F. W. Ahlgren on Mar. 31, a daughter.

### "King Tut" Wheat

Inquiries have been made at the University of Alberta regarding King Tut Wheat, which is supposed to have come from the tomb of Tutankhamen at Luxor, Egypt. It might be frankly stated that this is pure "bunk." There is not the slightest possibility of such ancient wheat germinating today. This King Tut Wheat is nothing but a revival of the old swindling game of selling undesirable wheat, together with much misinformation to unsuspecting farmers. The wheat is usually known as "Egyptian," and belongs to the class "Triticum turgidum." In the seed trade, it is sometimes sold as "Alaska, Miracle, Seven-headed, Egyptian Wonder, and now King Tut." Every few years some unscrupulous individuals seem to revive the old variety under a new name and sell it at exorbitant prices.

Egyptian wheat is easily distinguished by its branched head. This character gives it the appearance of being very productive but a matter of fact it does not yield as well as the commonly grown varieties of good bread wheats. It is of very poor milling and baking quality, for breadmaking it is very undesirable.

If Egyptian wheat or any other wheat of the same type were grown to any extent in Alberta it would have a most depressing effect on both local and foreign markets. Our export grain containing mixtures of such varieties would have lower milling and baking qualities, as well as commercial grade. High and uniform quality in Canadian export grain is now more necessary than ever, since the struggle in the world's grain markets grows more severe every year.

### MISCELLANEOUS

#### FOR SALE

Seed Oats For Sale - 2000 bushels of 60 Day Oats grown on breaking. Cut Aug. 14th. Price 10c bushel at bin. Yielded 70 bushels per acre last year.
